

# THE BEDROOM TAX

## WHAT WE CAN DO ABOUT IT

From April 1st, because of the 'bedroom tax', housing association and council tenants with spare rooms could face a reduction in their benefits of up to 25%. Many people will be forced to move, some could get into rent arrears, face eviction and potentially become homeless. In North Edinburgh alone there are over one thousand people affected. We are calling a public meeting to help people deal with this situation.
