Stuck In The Middle

A drama illustrating the hopes and thoughts when arise when a teenage boy thinks about leaving home and moving towards..

“Independence”

Scott has realised how dependant he is on his family and feels that he is ready to leave the comfort of the family home. But is this really wise? Can he stand on his own two feet without support? Can he prove to his parents how independent he can be? Or will reality slap him in the face when it's too late to turn back?
