

NEW CLASSES

Term starts from 22nd April onwards, with all our usual favourites such as arts, fitness, crafts and computers and we will also be having some really exciting new classes...

Make your own Newsletter

This 7 week course is ideal for people who can create a word/text document and would like to start experimenting with pictures and tables in order to create a poster, newsletter, invitation or flyer. Students should be able to create a simple document with some text in it and will learn to insert pictures, download images, lay out pages and columns, and insert tables and graphs.

Music Keyboards

This is a relaxing and fun introduction to learning music on a simple keyboard in the school. Whatever you learn you will be able to play on a full piano anytime. You will learn by using headphones and a friendly tutor to help and make it all simple.

Art of Still Life

Learn skills to draw a set-up of flowers, objects and fabric, using charcoal, pastel, watercolour and acrylics. The tutor will set up a still life arrangement for you to create your own masterpiece each week. Basic materials are provided but we do encourage you to bring in your own when possible.

Pottery

Pottery hand building and throwing. A unique opportunity to work in stoneware clay and glazes in a welcoming and well structured, supportive environment. We will be learning multiple methods of hand building each week and for those of you who want to tackle the wheel, it is our tutor's forte

Walking, Talking & Taking Pics

Walking in the local area, looking at local issues, and helping create a better environment. This course is built around doing things (weed/litter clearing, planting flowers etc) and recording through photography what you have achieved. This 7 week session will culminate in you being awarded the John Muir Bronze Award.

Pennywhistle

This is a happy, friendly class for you to learn to play tunes from Scottish favourites to popular songs and no need to have learned to play anything at all before, or to be able to read music. No experience at all needed — just come and enjoy.

Genealogy Workshops 1 & 2 Genealogy & Family History for You and Your Family 1

An introduction and overview, with an opportunity to practice searching for your ancestors on the Internet. If you wish, you can bring along some old family photos, certificates, letters, a Bible or other family heirlooms and join in the fun of learning how to discover who your ancestors were, what kinds of lives they led, and how they worked and played in the communities in which they lived.
