

Laura Holloway

Edinburgh Western

About Me

- Youth leader with local young people
- Involved in debating, in both British political and European style
- Confident communicator
- Enjoys working alongside other young people

If elected I would...

- Tackle local issues such as planned building of 2000 homes on greenbelt areas in Cammo and Maybury, both of which fall into the Edinburgh Western Constituency. I am concerned for lack of planned facilities such as schools and leisure centres for young people within these areas and how such developments will affect current schooling systems.
- Continue to discuss such issues with local groups such as girl guiding and schools in order to understand how local people wish to tackle local problems.
- Address the issue of poverty for young people both in Edinburgh and across Scotland.
- Aid the nationwide campaign for votes at 16 in Scottish elections.
- Work alongside my fellow MSYP to meet with young people to provide updates on political situations, bring national campaigns to a local level and fully immerse myself in the Edinburgh Western community.
