I have proudly served as Member of the Scottish Youth Parliament for Edinburgh Western for the past 2 years and in that time I have:

- *attended all Youth Parliament sittings since I have been an MSYP and have spoken on behalf of the young people of Edinburgh Western at each one*
- *taken part in various projects in our community such as sitting on a panel with other young people looking at applications for funding for youth projects in our community*
- *consulted constituents on what they think the UK Youth Parliament's national campaign for 2015 should be*
- *proposed two motions in the Scottish Youth Parliament*

There are so many issues effecting Scotland's young people today but one issue that must be addressed is Inequality. More than 1in5 of Scotland's young people are classed as being in poverty. This is a shocking statistic but who better than to tackle it than us – the young people. I am committed to helping create genuine change in our community and our country

Although I have achieved a lot in my term, I know that there's more I can achieve for our community. I can and will represent Edinburgh Western in the best possible way should I be re-elected.
