

Granton Improvement Society

A COMMUNITY TRUST HELPING TO
TRANSFORM NORTH EDINBURGH

You are invited to the unveiling of the Asset Mapping Report which is the outcome of months of work by GIS and a team of volunteers looking at the assets of North Edinburgh.

The gathering is an invitation to all organisations that provide services, support and work within our community.

The gathering will be addressed by Linda Gillespie from Community Ownership Support Services (COSS).

Join us on Tuesday 31st May from 3.30 - 5.30 pm at the Prentice Centre, West Granton Road.

There will be tea and coffee and a Crèche will be available to be booked by those that need it.

**Thank you for taking part
in this gathering of information
about our area.**

**Organisations across North
Edinburgh who provide vital
services are finding the financial
climate affecting their ability to
manage. The need for services
is great and it may be that
organisations and individuals can
use the information in this report
to have a dialogue with other
providers and clients and begin
to plan our community's future.**
